

ELIGIBILITY IN ECUADOR

FEDEDI

ECUADORIAN SPORTS FEDERATION FOR PEOPLE
WITH AN INTELLECTUAL DISABILITY

FEDEDI STRUCTURE

ELIGIBILITY PROCESS

1.- Paralympic clubs for people with an intellectual disability request the sports valuation of its athletes, or at events organized by the FEDEDI choose to athletes who stand out.

2.- The Technical Director performs the assessment of athletes or depending on the times or positions obtained by athletes in events choose those who have high performance projection.

3.- The Technical Director asks the NEO starts the process of primary eligibility chosen athletes.

4.- The NEO asks the clinical psychologist cite to parents, the athlete and a coach for the interview with them and their appraisal. Asks their parents attend the interview with the following documentation:

- Original and photocopy color of the card of disability, in the Ecuador, Ministerio de Salud certifies the disability through a card, which the majority of our athletes have it.
- Original and photocopy of the certificate of citizenship or birth certificate ;
- Certificate stating that the athlete has intellectual disability, with the name of the Test that evaluated him, intellectual coefficient score and diagnosis, submitted on letterhead of the institution which is represented by the athlete and with signing of responsibility of the psychologist who carried out the assessment;
- For athletes with Down syndrome must be presented the karyotype exam;
- Updated medical certificate to indicate the health of the athlete, and where the physician determine the suitability of the athlete to perform sport, certified with the signature and seal of the professional (original);
- Authorization of the legal representative of the athlete to make the athlete training.

When the number of sportspeople by province is equal to or greater than 4 is the psychologist who travels to the places of residence of athletes.

During the interview takes advantage to photograph the athlete.

In cases in which the diagnosis is not sufficiently firm, with the necessary evidence, done one year of follow-up to athletes.

7.- Fill the application form for which is cited again to parents and athletes. Signature the NEO and the representative of the Member organization.

8.- Is checked that it complies with all the requirements and sent the file to Inas Eligibility Committee.

DIFFICULTIES

Eligibility:

We don't have a test for assessing adaptive skills validated in Ecuador. Versions of the test of Weschler validated in Ecuador are very old (WISC-R, WAIS).

Sport: We do not have enough economic resources to carry out mass sports. We don't have own venues so we depend on other organizations in order they provide us the venues.

Human: Sports processes involve time and not always we have the commitment of parents to do so. The economic situation of our athletes and their families are critic and they prefer to work rather than train.

Most of the above difficulties are directly related to the economic limited resource we have.
