

SECTION 1: JUDO SPORT SPECIFICATION

1.1 Rules of Competition

The rules of Virtus Judo pertaining to competition and rankings will be those of the IJF with minor adaptations approved by Virtus.

1.2 Virtus Sport Rules

Within the development period of Judo, Virtus will promote the Judo competition structure. This will help to define levels of Judo ability ensuring an increase in participation and competition numbers before Virtus commences full delivery of Regional and World Championship events, including potential Global Games inclusion in 2023 for Adaptive Judo levels 1, 2 and 3. (Appendix 14.1).

1.3 Divisioning

To assess the individual, elements of judo skills, movement literacy (Agility, Balance & Coordination (ABC's)) and Cognitive processes, competitive Fundamental activities are a crucial part of attaining the appropriate groups within Judo. These will only apply to competitions in the development period and not Intellectual Impairment specific events. Each competition will be explained more clearly which Judo ability level it is aimed at.

Creating a uniformed criterion could be challenging, however with the uniformed criteria of levels, judo based activities can be easily determined to assign judoka to the appropriate category.

- Movement Skills
 - Tachi-Waza
 - Running/jogging, side skipping, hopping, balancing/lunges, flexibility
 - Ne-Waza
 - Shrimping, Bridging, Core strength, Animal movements
- Judo Skills
 - Uchikomi, Nage-Komi, Ne-Waza Skills, Tsugi-Ashi
- Competitive Games
 - Tachi-waza Tag/judo specific movements games
 - Ne-Waza games
- Cognitive Processing
 - Creating movement skills in succession

Engaging in Randori/Shiai would **NOT** be recommended as this could be deemed inappropriate in many ways and detrimental to the well-being of the judoka.

To assess the levels of ability, comparisons would be utilised at this point to pre-determine the level of the judoka at the event. The time allowed for divisioning can be seen in section 2.7. Minimum of 1 hr per Ability Group/Division is required. Communication between several coaches on the day would support the activities listed above.

1.4 Weight Groups

1. Weight Classes will follow IJF for Men & Women weight groups
 - a. Men: -60kg, -66kg, -73kgs, -81kgs, -90kgs, -100kgs, +100kgs
 - b. Women: -48kgs, -52kgs, -57kgs -63kgs, -70kgs, -78kgs, +78kgs

1.5 Age

Lower age limit for all IJF competitions is 15 years (calendar year). Competitors under 15 year are not allowed to compete in any official Virtus or IJF sanctioned event.

12.3 Insurance

All Team Members are obliged to have their own travel and medical insurance for the duration of the Championships.

The LOC must provide public liability insurance for the event and should consider cancellation insurance. Virtus advises all LOC's to establish a clear cancellation policy and to publish this within the entry pack.

12.4 Event Proceeds

Any financial surplus resulting from the hosting of the Championships will be distributed 50% to the LOC and 50% to Virtus.

12.5 Emergency Planning

LOC's should develop clear emergency procedures in the event of a major accident or emergency at all accommodation and training venues. This includes protocols for managing the immediate situation, ensuring the support of emergency services, for liaison and coordination with Virtus staff, and for management of media.

The plan should be developed in consultation with Virtus and made available to key staff within the LOC.

12.6 Contingency Planning

Despite the very best planning, there will often be unforeseen circumstances that arise during the planning and delivery of a major event. It is important therefore that LOC's give consideration to contingency and backup plans in respect of essential event areas to ensure successful delivery.

Examples might include:

- Problems regarding venue and facility availability,
- Loss of a key sponsor or income source
- A power failure or loss of internet impeding communication
- Accommodation availability problems
- A key member of staff or volunteer falling ill
-
